Devotional Reading: Psalms 32:1-7.

Woman in Command

Lesson for July 7, 1957

THIRTY-THREE centuries is a long time. Records made 3300 years ago have been broken long since. It would be a rash person to say that a modern Christian woman should stay inside the limits set for women 1300 years before Christ. No person of that far-away time can be a precise model for Christians today. Nevertheless we can learn something from the ancients.

Dr. Foreman

One question which — oddly enough — has been bothering the race for probably longer than 3300 years, is this: What is woman's place? It is just as absurd a question as the other one which — also oddly enough — is never asked: What is man's place? The odd thing is that, we assume that man's place is anywhere, while woman's place is some way limited. We assume that man can go where he pleases, while women have to ask men's permission. This notion is a hangover from ancient times when it really was a man's world far more than now. Nevertheless even in those distant days an able woman could make her own place in the world. Miriam, sister of the famed Moses, is a case in point. She was a woman of a strong mind, a natural leader. There is no "story" of Miriam. There is a story of Joseph, a story of Moses. But the picture of Miriam, like the majority of Bible characters, is drawn with a very few strokes. All we have is glimpses; yet from these we can learn something of an interesting woman.

Smart Girl

Miriam was older than her brother Moses, — not just a year or two older, but old enough, by the time he was born, to manage that business about getting his mother for a nurse. Undoubtedly her mother had coached her for the interview with the princess (see Exodus 2); but all the same, the girl must have had sense. She was smart enough to step up to her Royal Highness just at the right moment. A little too soon and she would have been shooed off as a little slave-girl coming where she had no right to be. A little too late and the Princess would have chucked the baby back into his sea-going bassinette, or else bundled him off to the palace with one of her own maids. But just at the right instant little Miriam bobs up with the right question.

All the Women Went After Her

On the morning after the night when the Israelites crossed the Red Sea, we meet Miriam again. This time she leads the song of triumph and praise, celebrating the fall of Egypt's might and the liberation of her people. Singing and playing and dancing, she led the women in the celebration of the Lord's victory. Here are two hints about the place of women as leaders. We already had one hint in the story of Moses in the bulrushes: Smart women grow from smart girls; leaders do not come from among stupid people. In the story of Miriam and her victory-song, we have first the hint that a woman can be a most effective leader of women. "All the women went after her," we are told. It is not true that women follow men only: a strong sensible woman has little trouble in securing feminine support. The other hint is that Miriam, in her primitive way if you like, was leader of her people in two respects: she was interpreting for them the great event of the Exodus ("just a lucky wind," no doubt some were saying) as an act of God, and she was leading in creative art. It is rather suggested that the "Song of Moses" was at first the Song of Miriam. In short, Miriam took the lead where she could and as she could.

Too Far

And yet this leader could show up in a bad light, as the story in Numbers 12 shows. It appears she had fallen into the blunder made by some dictators since: she tried to run the private affairs of other people. In a way, she could have argued that Moses' marriage was her affair, since she was in the family; and what woman does not feel a natural interest in all marriages, especially those of her own close kin? But the moral is short and clear; When a leader becomes a dictator, even God is no longer patient.

County Line

County Line, July 1.- The Bible School at Central Baptist Church closed Friday, with a good attendance and a program Friday night.

The revival will begin at Central Church July 14, with the Rev. David Bailey, of Warwick doing the preaching .

Marvleen O'Cull, of near Richmond is spending some time in the home of Mr. and Mrs. Richard Nash.

Rosanna Irby has accepted a position in Washington, D. C.

Mr. and Mrs. Shelby Tucker are visiting his parents in Pennsylvania.

Mr. and Mrs. W. W. Overton have a new car.

Mr. and Mrs. Paul Coleman visited her parents, Mr. and Mrs. Everette Ferguson Saturday night.

Mrs. Otey Jones and daughter, Hilda, are spending some time with Mrs. Carter, of near Richmond, and Mrs. Reynolds, of Prospect.

Mr. Hunter Harvey has returned from the hospital and is getting on nicely.

We are glad to hear Mrs. Tip Evans is getting on nicely, after an operation.

Miss Frances Jones spent last week with Dorothy Jones, near Dolphin.

Mr. and Mrs. Roscoe Ramsey, and Mr. and Mrs. Bernard Pillow visited Mr. and Mrs. Jesse Jones Sunday.

Mrs. Lankford Torrence celebrated the birthday of her little daughter, Nevella, on Saturday. Her Sunday School class helped her celebrate.

Mr. Norman Cheatham is very ill.

Mr. and Mrs. Vernie Jones visited Mr. and Mrs. Fred Jones Sunday night.

Demonstration Club Schedule

Variations in Sandwiches and Egg Cookery will be the subject at Home Demonstration Club meetings next week. The schedule:

July 8: Richwood Club will meet at 6 P. M. in the home of Mr. and Mrs. R. E. Wilburn. Mrss Fred Wooldridge and Mrs. Floyd Mayberry will give the demonstration. All members and their families are expected to be present.

July 9: Appomattox Club will meeet at 10:00 A. M. with Mrs. Gordon Bragg. Mrs. Bragg will give the demonstration. Note change in date of meeting.

July 9: Clover Hill Club will meet at 2:00 P. M. with Mrs. Verna Conner. Mrs. Conner will give the demonstration.

July 11: Oakville Club will meet at 2:00 P. M. with Mrs. Berkley Cabaniss. Mrs. Everette Phelps will give the demonstration. Note change in date of meeting.

July 11: Stonewall Club will meet at 2:00 P. M. with Mrs. W. A. Owen. Mrs. Lyle Thomas and Mrs. Wilton Routon will give the demonstration.

July 12: Glendale Club will meet with Mr. and Mrs. Hunter Nash at 6 P. M. Note change in date of meeting.

July 13: Bethany and Reeks Clubs will hold a joint meeting at the home of Mr. and Mrs. Ryland Staples at 6:30 P. M. All members and their families are expected to attend.

Subscription rate: $2.00 a year.

...cook Electrically with HOUSEPOWER

What's happening to Mrs. Modern's dinner while she gives such loving care to her table decoration? Take a peek through the door into the All-Electric kitchen of her All-Electric home.

The roast is minding itself in her Electric Oven that will turn off automatically when the meat's done to perfection. There's delicate hollandaise cooking safely on the automatic range-top element that holds exactly the right heat always. And everything's going to taste even better in the cool climate of Mrs. M's year-round, Electric Air Conditioning.

And Mrs. M's just you with HOUSEPOWER . . . the modern wiring that lets you Live Better Electrically. Ask your Electrical Contractor about Housepower today. And, at your Electric Appliance Dealer's, see the exciting new helpers for your All-Electric Home.

ONLY 1 HOME IN 3 HAS HOUSEPOWER

Yet VEPCO's power-to-meter wiring can cut the cost of installing. To handle enough power for your home, at least a 100-ampere circuit breaker panel, plus plenty of circuits to carry the power where you want it, ask your Electrical Contractor a little it takes to get full HOUSEPOWER. It's your power to live BETTER—ELECTRICALLY

Endrin is highly effective against the tobacco flea beetle which is an added advantage, since this insect is often abundant on tobacco along with hornworms. TDE is less effective than endrin in controlling flea beetles.

Systematic (working internally) and other organic phosphate insecticides are being tested for green-peach-aphid control on tobacco. Thimet applied in transplant water at setting time has given promising resultes. However, this material is very toxic to mammals and shows a low margin of safety

...rvest and drying helps ...age by infestation. In... moisture with their ...safe storage of most ..., the moisture content ...e higher than 13%. ...grain clean. Present law requires that grain in interstate transit be diverted from food use if it contains one or more rodent pellets per pint, or if 1% or more by weight are insect-damaged kernels.

Control of Tobacco Insects

Hornworms, flea beetles, budworms and the green peach aphid are the most important insects attacking Virginia's tobacco crop — and scientists are unremitting in their efforts to find better ways to control the pests.

At the Chatham branch of VPI Agricultural Experiment Station, tests conducted with insecticides used in the plantbed before pulling the plants for transplanting showed that DDT and dieldrin were the most satisfactory from the standpoint of residual protection in newly set tobacco. Endrin, dieldrin, aldrin, DDT and heptachlor, applied after the plants were set, all gave excellent flea beetle control. At lower dosages, dieldrin and endrin were more effective than the other materials.

A three-year study of insecticides applied in transplant water with hand transplanters showed that heptachlor, aldrin, lindane and chlordane not only gave excellent wormprotection, but greatly reduced first generation flea beetle emergence from the soil around the treated plants. Demeton was less effective.

TDE and endrin gave excellent hornworm and budworm control with no bad effete on the aorma and smoking taste of the cured tobacco. In field tests, endrin as a dust or spray gave a higher initial kill of hornworms than TDE, but at the end of two days the materials were equal in effectiveness.

DHIA Offers Help to Dairymen

An average dairyman works 365 days each year, 12 to 16 hours per day; invests about $700 per cow; freezes in the winter and broils in the summer; hoists, pulls, tugs and strains to get 2 to 3 tons of hay and 3 to 4 tons of silage per cow; gives the grain salesman $75 to $100 for grain and the veterinarian $5 to $20 to care for each cow; and moves from 6 to 10 tons of manure per milker.

For an annual fee of $4.00, the DHIA will help the dairyman know what each cow is doing for him profitwise.

Stonewall

Stonewall, July 1.- We are all so glad to know that Mr. C. D. Carson has returned home from Virginia Baptist Hospital, and is much improved. We hope he will soon be real well.

Mr. and Mrs. Joe Stephenson, Jr. and two girls, of Norfolk, spent the week-end with her parents, Mr. and Mrs. E. L. Chick and her sister, Mrs. Henry Beard and family.

Mr. and Mrs. Tom McVetty and giris, of Royal Oak, Michigan are spending their vacation with her mother, Mrs. Robert H. Thornhill.

Mr. and Mrs. Herbert Matthews, III, of Orange, and Mr. and Mrs. Leighton Hatey and children, of Roanoke spent the week-end with Mr. J. O. Davidson and other home folks.

Mrs. Irby Wheeler and Mrs. Harold Jones gave Miss Louise Burnette a shower last Friday night. She will be married to Mr. Harry Gordon Lawson on July 13, at Heuron Baptist Church. We wish them much happiness in their new life together.

Let's not forget the revival which will begin at the Bethel Methodist Church next Sunday night, July 7. The pastor, the Rev. Aaron D. Smith, will be assisted by a visitinh minsiter. Everyone is invited to attend.

Mr. and Mrs. George Jennings and children, of North Carolina, spent the week-end with his parents, Mr. and Mrs. Parks Jennings.

Mrs. J. H. Beard and Mrs. John Hurt spent last week in Richmond with Mrs. A. B. Johnson and family.

Miss Virginia Davidson, of Lynchburg is spending her vacation with her parents, Mr. and Mrs. Thomas B. Davidson.

Mr. and Mrs. Lyle Thomas and Mrs. Marvin Stratton visited Mr. Marvin Stratton in Charlottesville Hospital on Sunday. Mr. Stratton is very ill at this time. We wish for him a speedy recovery.

Miss Zo Matthews, of Orange, spent the week-end with her sister, Mrs. John Alvis and family.

Mrs. Cabell Miller and children, of Massie's Mill, and Mrs. Neal Williams and boys, of Lynchburg, spent last Thursday with their parents, Mr. and Mrs. Lyle Caldwell. It was Mr. Caldwell's birthday. We wish him many more happy days to come.

'NO PARKING' SIGNS STOLEN

Rochester, N. Y.- In the past year, 300 of the city's 560 "no parking" sings have been stolen from streets. While police cannot figure it out, they suspect that some of them might have been taken by summer cottagers as moorings for boats. The signs have a 38-pound metal base.

Appomattox is a growing town.
